### **DETAILED ACTION**

1. Claims 1-21 are pending in this application and have been examined.

#### ***Terminal Disclaimer***

2. The terminal disclaimer filed on 8-5-2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent 6,609,203 has been reviewed and is accepted. The terminal disclaimer has been recorded.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim contains the passage: "...irradiating the obscurable section with a resolution of individual lands and pits..." The passage is unclear. The applicant may wish to amend the language to "...irradiating the obscurable region with a wavelength of light such that the resolution is on the order of the individual lands and pits..." or any other language directed towards clarifying the limitation.

***Allowable Subject Matter***

5. Claims 1-14, and 16-21 are allowed.
